MONEY (RUPEES AND PAISE)

Introduction:

- Gather the students in a group.
- Explain to the students what the activity is going to be.
- Provide understandable explanations to the students regarding the terms such as "money", "rupees" and "paise".
- Tell them about various denominations of coins and notes.

Objective:

- Teach the students about money and how an expenditure is calculated.
- By the end of the session, the students will be able to calculate their expenditure on various items.

Pre-Assessment: Ask the students how many paise makes a rupee. Based on the level of understanding, categorise the students into level-1 and level-2.

Pre-Requisites: Colored paper to create currency notes and coins, white board, white board marker

LEVEL-1

Activity:

- Ask the children what their favourite things are and how much does it cost and how will they pay to buy it
- Now give the students previously created currency notes and coins and ask them to match it with the amount they said earlier.

Post-Assessment:

- Ask the students what snacks they eat in a day and how much they spend.

LEVEL-2

Activity:

- Use the colored paper to make currency notes of different denominations.
- Split the class into 2 groups. Sellers and buyers
- Create an imaginary market where the sellers sell imaginary products to the buyers and the buyers buy products from them using the money(coloured paper)

Post-Assessment:

- Ask the students to make paper currency with various denominations.
- Then ask them to add them all up.
